

HIGH-EFFICIENCY FUEL TREATMENT

IMPROVES AND RESTORES ENGINE PERFORMANCE

Car – Truck – Marine – Motorcycles - Road, Water, Snow

MULTI-FUNCTION FUEL TREATMENT - ALL-IN-ONE

BENEFITS :

COMBUSTION

- ◆ Reduces fuel consumption by up to 10%
- ◆ Improves cetane and octane rating
- ◆ Ensures optimal injector atomization
- ◆ Improves air/fuel exchange
- ◆ Increases combustibility - diesel and gasoline

FUEL SYSTEM

- ◆ Lubricates all system components
- ◆ Removes moisture
- ◆ Eliminates and prevents bacterial formation
- ◆ Blocks corrosion - Deep-cleaning efficiency
- ◆ Protects by lubricating within the metal cavities

CLEANING & CLEANLINESS

- ◆ Clogged injectors regain their efficiency
- ◆ Protects the DPF emission filter and EGR valve
- ◆ Eliminates and prevents carbon buildup
- ◆ Cleans upper cylinder - rings, valves, spark plugs
- ◆ Restores metal cleanliness throughout the fuel system
- ◆ Reduces black soot emissions

CONDITIONING

- ◆ Protects against biofuels and ethanol
- ◆ Adds lubrication to diesel
- ◆ Stabilizes diesel and gasoline (storage)
- ◆ Effective in cold weather down to -18°C (0°F)
- ◆ Reduces harmful emissions

**COMPATIBLE WITH
DIESEL AND GASOLINE**

**IMPROVES ACCELERATION,
INCREASES POWER**

**MORE COMPLETE COMBUSTION
GO FURTHER WITH A FULL TANK!**

**How Much to Use in Fuel – Diesel or Gasoline
Dosage: 16oz/473 ml treats 190 gal/720 L of fuel
(1 oz/30 ml per 12 gal/45 L of diesel or gasoline)**

Vehicle	Recommended Amount
Car - 12 gal./45 L	1 oz/30 ml
Pickup/SUV - 20 gal./75 L	1.7 oz/50 ml
Motorcycle - 5 gal./19 L	0.5 oz/12 ml
City Truck - 45 gal./170 L	3.8 oz/110 ml
